EDUCATION

IMS Engineering College, Ghaziabad

2022 – 2026

B.Tech in Computer Science and Engineering | (CGPA : 8.16)

Ghaziabad, Uttar Pradesh

Dayawati Modi Academy, Rampur

2021 – 2022

XII (CBSE) | (Percentage: 75)

Rampur, Uttar Pradesh

Dayawati Modi Academy, Rampur

2019 – 2020

X (CBSE) | (Percentage: 92.8)

Rampur, Uttar Pradesh

EXPERIENCE

NuZn Infotech

July 2025 – September 2025

SDE Intern

New Delhi, India

- Developed a full-stack web application using Spring Boot, ReactJS, and MySQL, implementing secure authentication and authorization using JWT.
- Designed and implemented RESTful APIs for user management, transaction handling, and real-time data exchange following clean architecture principles.
- Integrated WebSocket-based real-time communication to enable instant clientserver interaction with low latency and efficient message broadcasting.
- Optimized backend performance by writing efficient SQL queries, applying proper exception handling, and maintaining structured service-layer logic.
- Performed unit testing for service and controller layers using JUnit and validated API endpoints through Postman to ensure reliability and accuracy.

PROJECTS

Reddit Clone | *Spring Boot, Angular, MySQL*

- * Built a full-stack Reddit-like platform with user authentication and authorization using Spring Security and JWT.
- * Implemented email verification (MailTrap) for account activation and documented APIs with Swagger.
- * Designed scalable backend with Spring JPA and integrated Angular frontend with Bootstrap for responsive UI.

Expense Tracker | *Spring Boot, MySQL, JWT*

- * Designed and implemented a RESTful API for personal expense management.
- * Used Spring Boot, Spring Security with JWT for authentication and authorization
- * Connected backend with frontend to visualize user transactions and monthly insights.

Multithreaded Parking System | *Java*

- * Built a terminal-based parking system simulating entry/exit of cars using Java Threads
- * Applied object-oriented principles and custom exception handling
- * Handled concurrency issues using synchronized blocks to ensure data integrity

TECHNICAL SKILLS

Programming Languages : C, Java, Python, SQL

Technologies : Spring Boot, ReactJS, MySQL, RESTful APIs, JWT Authentication, WebSocket

Developer Tools : Git, GitHub, Postman

Course Work : Data structure and Algorithms (DSA), Object-oriented programming (OOP), Database management system (DBMS), Computer Networks (CN), Design Principles of Programming Languages (DPPL), Theory of computation (TOC), Software Engineering (SE)

ACHIEVEMENTS

Finished in the top 10 out of 100+ teams in the SIH 2023 Hackathon organized at college level by IMSEC.
